SSC NEXUS-T

A PREMIUM TRANSIT HUB
WHERE MULTIPLE PATHS MEET

At SSC Nexus-T, we've reimagined the after-school hours as a bridge between learning and doing. It's a Premium Transit space where your child moves from the classroom to the 'Makerspace,' discovering hands-on Technical skills and hidden Talents.

We don't just mind the gap between school and home; we fill it with the joy of making, the thrill of sports, and the confidence that comes from mastering real-world skills. While you finish your workday, your children are building their future—one project at a time.

REGISTRATION IS
NOW OPEN!
